

#### 4.2 Environmental Policy

### **ENVIRONMENTAL HEALTH & SAFETY POLICY**

RIVERSTONE RESOURCES SDN.BHD. strive for excellence in all its activities. We are committed to continual improvement and will give priority towards environmental , health and safety concern.

RIVERSTONE RESOURCES SDN.BHD. will comply with all relevant legislation and regulations currently enforced in Malaysia in our activities , products and services.

RIVERSTONE RESOURCES SDN. BHD. will take all reasonable and practicable measures to prevent and eliminate risk of injuries and occupational illness to people and pollution to the environment which affected by our activities. In this regard , we will ensure proper training , safe and healthy working environment to our employees, contractors and visitors.

The responsibilities for environment, health and safety are shared :

- The Management accepts the responsibility for leadership, visible involvement, and continual improvement:- including development of policies, programmes and procedures and provision of adequate resources.
- The Managers, Executives and Supervisors are responsible for executing the Environmental, Health and Safety Policy, programmes and in developing pertinent knowledge and skills for those under their supervision. To ensure programmes are carried out and policies and procedures are followed.
- All employees should look after the safety and health of themselves, their colleagues and to participate, cooperate and abide by RIVERSTONE RESOURCES SDN. BHD's environmental, health and safety programmes.

The Environmental, Health and Safety policy must be strictly adhered to by all employees.
